

Electron offer a wide range of cabinets and frames for the mounting of active and passive equipment. Whether it is floor standing or wall mounted, we have a cabinet or frame to meet your exact requirements.

Floor Standing Cabinets

Our range of floor standing cabinets are aesthetically pleasing whilst retaining high levels of build quality and flexibility of use.

- Available in 22 - 47U heights
- 600x600, 600x800, 800x600, 800x800 footprints
- Metal-framed smoked safety glass front door
- Lockable and removable side panels
- Hinged and reversible rear door

Wall Mounted Cabinets

These smaller cabinets are ideal for small LAN installations or remote patching or cross connection locations. Their neat design means that they can be discreetly mounted on any suitable wall, without taking up valuable floor space.

- Available in 6 - 12U heights
- Lockable glass front door
- Adjustable 19" profiles

Chatsworth Products Open Racks

These floor mounted open racks are ideal for larger, computer room installations where security is not an issue but where ease of access and cross patching is essential.

- High quality construction and design
- Open architecture allows unrestricted airflow and quick access to equipment
- Small footprint maximises use of space
- Available in a variety of styles and sizes
- Excellent cable management options

Cabinet Accessories

- A full range of cabinet accessories are available, including:
- Power Distribution Units (PDUs) – Vertical and Horizontal
- Roof and rack mount fan units
- Shelves – Fixed and Sliding
- Cable management - Vertical and Horizontal

So, whatever your cabinet or frame requirements Electron have a solution that will not only be well built and aesthetically pleasing but will also make maximum use of the space available whilst optimising ease of use and practicality.
